

Glasgow Royal Fertility Clinic

We hope this price list will help you assess the cost of your consultations, investigations and treatment. It provides information about what is included in the cost and how we make a refund if your treatment does not take place for any reason. At any time, if you have any questions about the fees, payments or refunds, please contact us as soon as possible on 0141 201 8581 to speak to a member of staff.

Consultations and Assessment	
Fertility Specialist consultation	£180
Ultrasound scan of uterus and ovaries	£100
AMH measurement	£80
Semen analysis	£100
IVF and ICSI Treatment Package	
	£4000
Includes all screening tests: <ul style="list-style-type: none"> Female: HIV, Hepatitis B core antibodies, Hepatitis B surface antigen, Hepatitis C blood test Male: HIV, Hepatitis B core antibodies, Hepatitis B surface antigen, Hepatitis C blood test Female: Rubella, Chlamydia, vaginal swab Male and Female Haemoglobinopathy screening Male: Karyotype, Y microdeletions and CF status if low sperm count 	
Includes all clinical interactions incorporating: All treatment planning visits, consents, scans, blood tests, egg collection under sedation, ultrasound guided embryo transfer, pregnancy scan, one follow up consultation and first counselling session.	
Includes advanced embryology incorporating: <ul style="list-style-type: none"> Closed culture embryo incubation Embryoscope with time lapse-monitoring of your embryos Blastocyst culture of embryos to day 5 / 6 Vitrification of surplus embryos First year of storage 	
Includes HFEA fee	
Does not include medication which is individualised	
Annual storage fee for embryos	
	£250
Annual storage fee applies after first year of storage	
Frozen embryo transfer	
	£1000
Includes all blood tests if natural cycle or monitoring if constructed cycle, and pregnancy scan. Does not include medication which is individualised	

Treatment with Donor Eggs or Sperm	
Donor Egg Recipient Treatment Package – known Donor	£5500
Includes all screening tests of both recipient and donor:	
Includes IVF and ICSI cycle incorporating: All scans, blood tests, egg collection under sedation, ultrasound guided embryo transfer, vitrification of surplus embryos and first year of embryo storage, pregnancy scan, one follow up consultation and first counselling session for donor and recipient	
Includes all clinical interactions incorporating: <ul style="list-style-type: none"> • Closed culture embryo incubation • Embryoscope with time lapse-monitoring of your embryos • Blastocyst culture of embryos to day 5 / 6 • Vitrification of surplus embryos 	
Includes HFEA fee	
Frozen embryo transfer into recipient	
Does not include medication which is individualised	
Annual embryo storage fee after first year	£250
Oocyte donation with Institut Bernabeau	£1000
Purchase of donor sperm from European Sperm Bank	
Cost per straw of ICI sperm	559 euros
Cost per straw of IUI sperm	589 euros
Required pregnancy slot of 1 of 10 families	500 euros
Courier for ESB to GRFC	295 euros
Administration	£275
Intra-uterine insemination (IUI) with donor sperm	£840
Includes HFEA fee	
Ovulation induction and IUI with donor sperm	£1240
Includes HFEA fee	
Treatment with Surrogate	£5900
Includes HFEA fee	
Does not include medication which is individualised	

Glasgow Royal Fertility Clinic

Pre-implantation Genetic Screening (PGS)	
Consultations and Assessment	
Fertility Specialist consultation	£180
Ultrasound scan of uterus and ovaries	£100
AMH measurement	£80
Semen analysis	£100
ICSI Treatment Package for PGS	
	£3800
Includes all screening tests: <ul style="list-style-type: none"> Female: HIV, Hepatitis B core antibodies, Hepatitis B surface antigen, Hepatitis C blood test Male: HIV, Hepatitis B core antibodies, Hepatitis B surface antigen, Hepatitis C blood test Female: Rubella, Chlamydia, vaginal swab Haemoglobinopathy screening Male: Karyotype, Y microdeletions and CF status if low sperm count 	
Includes all clinical interactions incorporating: All scans, blood tests, egg collection under sedation, ICSI, embryo culture and first year of embryo storage, one follow up consultation and first counselling session.	
Includes advanced embryology incorporating: <ul style="list-style-type: none"> Closed culture embryo incubation Embryoscope with time lapse-monitoring of your embryos Blastocyst culture of embryos to day 5 / 6 Trophocetoderm biopsy of embryo Vitrification of embryos 	
Includes HFEA fee	
Does not include medication which is individualised	
PGS using Next-Generation Sequencing (NGS)	
	Price per embryo
PGS with NGS – each sample (1 st – 4 th)	£500
PGS with NGS – each sample (5 th – 8 th)	£200
Each sample thereafter	£150
Includes embryo biopsy, and sample transportation costs	
PGS costs must be paid prior to shipping embryos to Genesis Genetics	
First frozen embryo transfer of PGS tested embryos	
	£700
Includes all blood tests if natural cycle or monitoring if constructed cycle, and pregnancy scan. Does not include medication which is individualised	
Frozen embryo transfer of subsequent PGS tested embryos	
	£1000

Pre-implantation Genetic Diagnosis (PGD) with Karyomapping	
ICSI Treatment Package for PGD	£3800
Includes all screening tests: <ul style="list-style-type: none"> Female: HIV, Hepatitis B core antibodies, Hepatitis B surface antigen, Hepatitis C blood test Male: HIV, Hepatitis B core antibodies, Hepatitis B surface antigen, Hepatitis C blood test Female: Rubella, Chlamydia, vaginal swab Male and Female Haemoglobinopathy screening Male: Karyotype, Y microdeletions and CF status if low sperm count 	
Includes all clinical interactions incorporating: All scans, blood tests, egg collection under sedation, ICSI, embryo culture and first year of embryo storage, follow up consultation and first counselling session	
Includes advanced embryology incorporating: <ul style="list-style-type: none"> Closed culture embryo incubation Embryoscope with time lapse-monitoring of your embryos Blastocyst culture of embryos to day 5 / 6 Trophocetoderm biopsy of embryo Vitrification of embryos 	
Includes HFEA fee if treatment already licensed for PGD by HFEA, licencing of new conditions will incur £600 charge.	
Does not include medication which is individualised	
PGD for Single Gene Disorders	£4500
Includes PGD Karyomapping for up to 9 embryos	
Additional charge for up to 19 embryos	£1500
Includes compulsory genetic counselling, embryo biopsy, sample transportation costs, and testing even if man/woman have different mutations of same condition, collection of DNA from family members, confirmation of genetic mutation and and design of custom molecular probes for PGD	
PGD for Two Genetic Disorders	£5000
Includes PGD Karyomapping for up to 9 embryos	
Additional charge for up to 19 embryos	£1800
Includes compulsory genetic counselling, embryo biopsy, sample transportation costs, and testing even if man/woman have different mutations of same condition, collection of DNA from family members, confirmation of genetic mutation and and design of custom molecular probes for PGD	
PGD for Chromosomal Rearrangements using NGS	£3000
Includes PGD for up to 6 embryos	
Additional charge per embryo in excess of 6	£250
Includes compulsory genetic counselling, embryo biopsy, sample transportation costs, and testing even if man/woman have different mutations of same condition, collection of DNA from family members, confirmation of genetic mutation and and design of custom molecular probes for PGD	
First frozen embryo transfer of PGD tested embryos	£700
Includes all blood tests if natural cycle or monitoring if constructed cycle, and pregnancy scan. Does not include medication which is individualised	
Frozen embryo transfer of subsequent PGD tested embryos	£1000

Glasgow Royal Fertility Clinic

Fertility Preservation	
Consultations and Assessment	
Fertility Specialist consultation	£180
Baseline ultrasound scan of uterus and ovaries	£100

	£3500
IVF and ICSI cycle including All scans, blood tests, egg collection under sedation, vitrification of embryos and first year of embryo storage, follow up consultation and first counselling session. Does not include medication	
Advanced embryology including: <ul style="list-style-type: none"> Closed culture embryo incubation Embryoscope with time lapse-monitoring of your embryos Blastocyst culture of embryos to day 5 / 6 	
Annual embryo storage fee after first year	£250
Sperm Freezing Package	
	£425
Sperm freezing per sample	£175
Annual storage	£250
Use of Frozen eggs	
	£2000
All scans, blood tests, thawing, ICSI of vitrified oocytes, embryo transfer, HFEA fee, follow up consultation and first counselling session. Does not include medication	

Ovulation Induction	
Consultations and Assessment	
Fertility Specialist consultation	£180
Baseline ultrasound scan of uterus and ovaries	£100
AMH measurement	£80
Semen analysis	£100
Ovulation Induction and Intrauterine Insemination Package	
	£1200
Ovulation induction including All scans, blood tests, intraruterine insemination, HFEA fee, follow up consultation and first counselling session. Does not include medication	
Ovulation Induction and Timed Intercourse	
	£1000
Ovulation induction including All scans, blood tests, intraruterine insemination, HFEA fee, follow up consultation and first counselling session. Does not include medication	
Fertility Assessment	
Couples fertility assessment	
	£460
Including: <ul style="list-style-type: none"> • Baseline scan • AMH measurement • Female Chlamydia test • Semen analysis • Consultation 	
Female fertility assessment	
	£360
Including: <ul style="list-style-type: none"> • Baseline scan • AMH measurement • Chlamydia test • Consultation 	

Glasgow Royal Fertility Clinic

IVF, ICSI, OI, PGS and PGDTreatment Drug Packages	
GnRH agonist / antagonist and 150IU FSH	£725
GnRH agonist / antagonist and 225IU FSH	£875
GnRH agonist / antagonist and 300IU FSH	£1025

Refund Policy

Unfortunately, it is sometimes necessary to discontinue treatment for medical reasons. Depending on the stage of treatment at cancellation, a partial refund may be due.

Full details of the cancellation fees for each of the treatment packages are in the table below

Cancellation fees	
Cancelled cycle prior to egg retrieval	£1000
Cancelled cycle due to no eggs retrieved	£3000
Cancelled cycle due to failed fertilization of eggs / no transfer	£3300
Cancelled IUI prior to insemination	£350
Cancelled FET prior to embryo transfer	£500

* Plus fees for ICSI, PGS/PGD or other procedures or other procedures already completed

Non-refundable deposits	
This is relevant for any patient that wishes to cancel treatment before they have started stimulation injections or received monitoring (blood tests or scans) by the clinic. This non-refundable deposit is to cover costs incurred by GRFC prior to the patient electing to cancel. These costs include the consent appointment, co-ordination of treatment dates, prescriptions and all administrative processes. Blood tests will be charged separately as listed.	£350

Terms and conditions

The above fees may be subject to increases at any given time. Full payment must be received at least 14 days prior to commencement of payment.

Payment methods

Bank/Credit card or cheque/banker's draft made payable to the 'University of Glasgow' and sent to:

The GRFC Co-ordinator,
Glasgow Royal Fertility Clinic,
2nd Floor,
New Lister Building,
10-16 Alexandra Parade,
Glasgow Royal Infirmary,
Glasgow
G31 2ER.

The treatment provided at Glasgow Royal Fertility Clinic is regulated by the Human Fertilisation and Embryology Authority and governed by the laws of Scotland.
